Trauma Advanced Registrar Prep

A program designed specifically to advance the trauma registrar's professional development.

Overview

Trauma registries are an essential component of any trauma program. They are increasingly complex and require highly skilled and knowledgeable personnel.

The trauma registrar is the key to this success!

The Trauma Advanced Registrar Prep Program is designed to provide the experienced registrar with challenges for professional development. Whether this is for preparation for the CSTR exam or to simply expand critical thinking, the TARP course has you "covered". TARP focuses on the following core areas: Data Management, Conditions of Injury, Coding and Scoring Concepts, and Registry Issues. These principles, as well as critical thinking, make the TARP course unique.

We have harnessed the best expertise to create a program to advance the professional development of the trauma registrars as they become our industry's future leaders.

FACULTY & STAFF

All authors & faculty members are regional, state, or national leaders working in all levels of Trauma and TQIP centers with varying backgrounds including AHIMA, Nursing, Health Services Administration, Psychology, Health Information Technology, and most importantly CSTRs and CAISS.

We bring this vast experience and insight to you! Our partnership with our students extends beyond the end of class.

Our MISSION:

To empower trauma centers through quality education, training, and staffing in the pursuit of quality data.

e-LEARNING

In keeping with our mission, this specially designed distant learning course is 5 weeks and contains:

- On demand viewing of all lectures to fit your busy schedule.
- Scheduled time for discussion and Q&A with faculty.
- A final comprehensive exam.
- 38.16 Nursing Credits or Education Credits

"WHEN WE RAISE
THE BAR, PEOPLE RISE
TO MEET IT."
