Pomphrey Consulting meets the trauma registrar
course requirement of CD 15-7.”**

Molly Lozada, American College of Surgeons
Trauma Verification

Overview

Trauma registries are an essential component of any trauma program. They are increasingly complex and require highly skilled and knowledgeable personnel.

The trauma registrar is the key to this success!

The Trauma Registrar Mentorship Program is designed to provide a solid foundation and standardized approach for the new trauma registrar in the following core areas: Data Management, Conditions of Injury, Coding and Scoring Concepts, and Registry Issues.

We have harnessed the best expertise to create a program to mentor new trauma registrars into the successful future leaders they are destined to be.

Once a client always a client!

FACULTY & STAFF

All authors & faculty members are regional, state, or national leaders, working in all levels of Trauma and TQIP centers, with varying backgrounds including AHIMA, Nursing, Health Services Administration, Psychology, Health Information Technology and most importantly CSTRs, and CAISS.

We bring this vast experience and insight to you! Our partnership with our students extending beyond the end of class.

Our MISSION:

To empower trauma centers through quality education, training and staffing in the pursuit of quality data.

e-LEARNING

In keeping with our mission, this specially designed distant learning course is 5 weeks and contains:

- 11 on demand pre course anatomy lectures
- 12 on demand ICD-10 lectures for multiple viewings
- 8 live classes with yearly updates to be concurrent with all national standards
- 6 hours of scheduled Q&A time with faculty for all questions
- Over 30 additional resource documents for your trauma registrar tool kit
- Over 15 hands on exercises
- Quizzes
- Final Comprehensive Exam
