Overview

The Trauma Program Manager (TPM) is fundamental for every level trauma center. They are to develop, implement and evaluate all elements of the trauma program. They work in close collaboration with the trauma medical director and complement their efforts. These are the key leaders to a successful program.

The Trauma Program Manager Mentorship is designed to provide a solid foundation and standardized approach for the new trauma program manager in the following core areas: leadership, communication with surgeons, administration and trauma program staff, expertise in the *Resources for Optimal Care of the Injured Patient, 2014*, trauma verification preparation, and national, state, and local trauma center resources.

FACULTY & STAFF

All authors & faculty members are regional, state, or national leaders working in all levels of adult and pediatric trauma and TQIP centers. Our authors and faculty members bring with them varying regional, professional physician and nursing experience.

PEER REVIEW

This program has been peer reviewed by experienced TPM leaders in adult and pediatric trauma centers as well as ACS.

Our MISSION:

To empower trauma centers through quality education, training, and staffing in the pursuit of quality data.

e-LEARNING

In keeping with our mission, this specially designed distant learning course is 8 weeks and contains:

- In-depth lectures for each chapter of the *Resources for Optimal Care of the Injured Patient, 2014*
- Over 90 additional resources
- Final comprehensive exam
- 33 nursing credit hours by the Virginia Nurses Association
